Dear Neighborhood Association Leader,

The City of Sacramento Neighborhood Services Division has developed a handbook to assist you in creating, sustaining or maintaining a Neighborhood Association. The handbook provides many helpful links, contacts, and step-by-step points on how to start, grow, and sustain an effective Neighborhood Association.

Keep in mind, the handbook is simply a guide and is by no means a **complete set of "how-to's" or rules that must be followed**. Each association is different and unique (that is a good thing); the guide will not fit each and every group perfectly. Instead, use the guide as a starting point to assist along the way, or help bring you and your members back on track if one goes astray.

While taking on the multifaceted task of managing a Neighborhood Association, do not forget to have fun! Work hard towards your goals. Keep in mind that you started this association to better the neighborhood and to get to know your neighbors – not to stress!

Without involved members of the community such as you, change cannot happen. We appreciate your endeavor to improve the City of Sacramento through a Neighborhood Association.

Thank you for showing interest in your community!

Sincerely,

Vincene Jones  
Division Manager  
Neighborhood Services Division  
Parks and Recreation Department

# Human Trafficking Awareness

**Neighborhood Services Division** continues to inform you about issues that have significant impact on our community. We would like you to be aware of human trafficking and have information regarding available resources.

Human trafficking is modern day slavery. According to the United States Government, “human trafficking” refers to the act of recruiting, harboring, transporting, providing, or obtaining a person for compelled labor or commercial

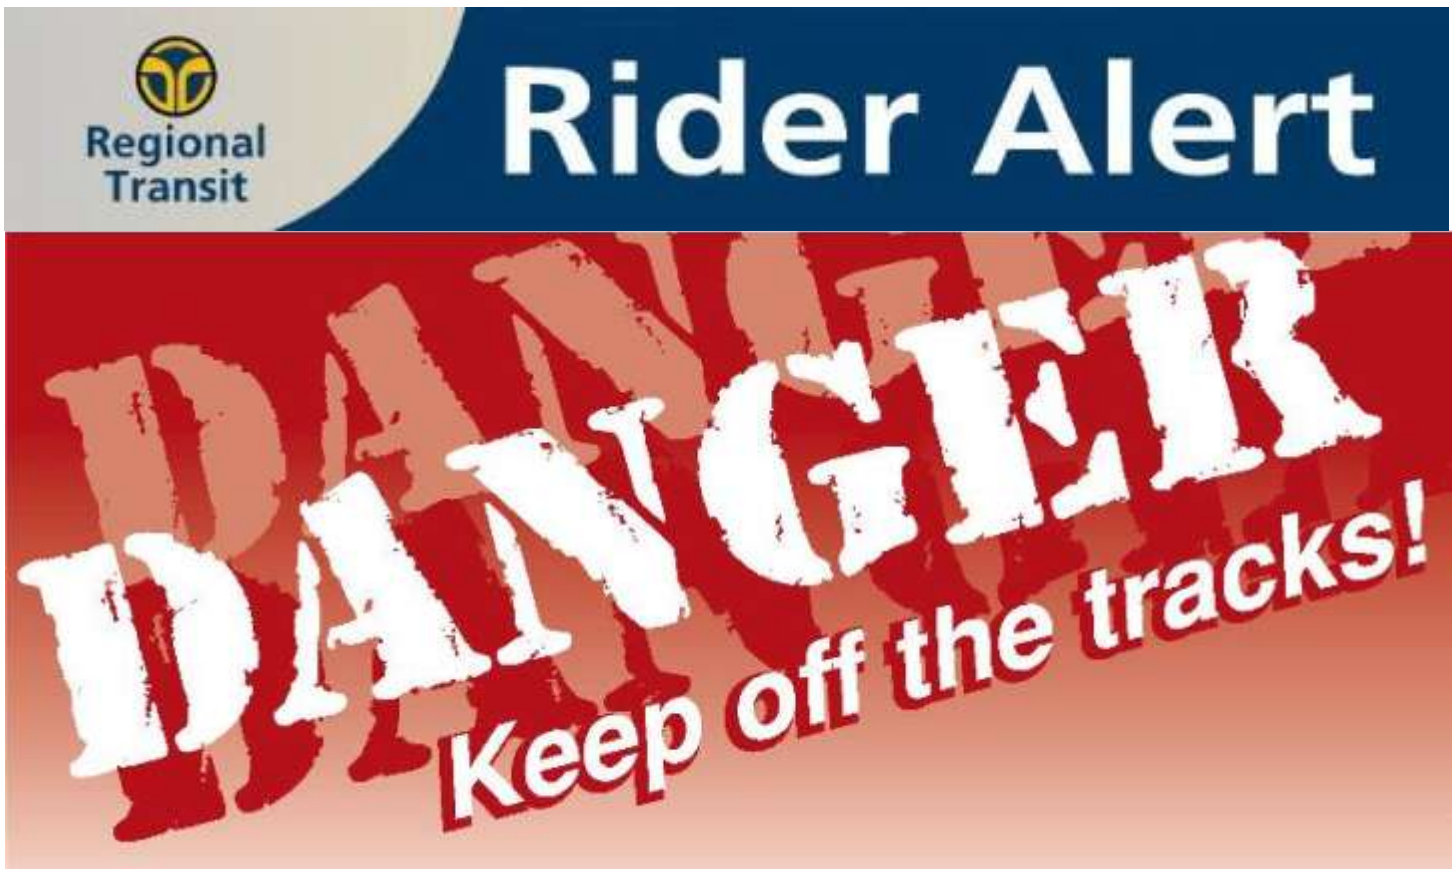

sex acts through the use of force, fraud, or coercion. In other words, it is the process of controlling a person with the intent to exploit them. While the term “trafficking” might imply some kind of movement, victims of human trafficking can be born into slavery or otherwise enslaved without having been transported anywhere

It is estimated that there are 35.8 million slaves in the world today. They are women. They are men. They are children. Modern day slaves can be found all over the world, including in every state in the U.S. In fact, it is also estimated that there are up to 300,000 children at risk of being trafficked in the United States alone.

RT has activated high voltage wires above the light rail tracks along the Blue Line to Cosumnes River College (CRC) light rail extension currently under construction. **Stay clear of this high voltage area and the overhead wires, which are extremely dangerous!**

RT will be operating light rail test trains between the Meadowview Station and the new Cosumnes River College Station starting later this month. Testing may take place at any time during the day or night, and will continue until the opening of the Blue Line to CRC light rail service in September 2015.

**Pedestrians and bicyclists should be careful around the new light rail tracks. The public is reminded to adhere to the following safety rules:**

- Stay alert and be aware of your surroundings when near tracks or in stations.
- Avoid the danger of distraction caused by cell phones, headphones or other electronic devices.
- Look and listen for trains. Light rail trains can travel at any time from either direction and are relatively quiet. After a train has passed, a second train might be traveling from the opposite direction.
- Whether on foot, bike or in a vehicle, it is illegal to go around moving or lowered crossing gates.
- It is prohibited to ride bicycles, skateboards or rollerblades in stations.
- Never use light rail tracks for walking, jogging or taking shortcuts.

For information about RT's "See Tracks? Think Train!" light rail safety campaign, visit [sacrt.com](http://sacrt.com).

# Calvine Road Closure

## Calvine Road Closure & Traffic Restrictions at the Union Pacific Railroad Crossing

Starting Monday, May 18 at 7 a.m. until Wednesday, May 20 at 5 p.m., Calvine Road -- from Power Inn Road to Elk Grove Florin Road -- will be closed to through traffic. This closure has been requested by Union Pacific Railroad for urgent repairs needed for sections of railroad tracks.

- The closure will impact all westbound and eastbound through traffic on Calvine Road -- between Power Inn Road & Elk Grove Florin Road -- including vehicles, pedestrians and bicycles.
- The full closure of Calvine Road will only occur at the Union Pacific Railroad crossing between Barrymore Drive/Sheldon North Drive to Vintage Park Drive. Access for all property owners and residents will be maintained at all times.

**Increased Travel Time & Detours:** Through traffic is advised to avoid this area during the closure period as there will be significant impacts to all roadway users. Roadway users are advised to use alternative routes until project work is completed (see detour map on back). Detour signs and electronic message boards will be in place to alert motorists, pedestrians and bicyclists about the temporary road closure.

**Construction Activities:** Project work includes Union Pacific Railroad making urgent repairs to sections of railroad tracks. County maintenance crews will also repair adjacent sections of pavement on Calvine Road on the east and west sides of the railroad tracks.

**Closure Period:** Sacramento County and the City of Elk Grove understand the challenges and inconvenience that commuters, residents, businesses, bicyclists and pedestrians will experience during the closure period and ask for the public's patience and cooperation as we work to complete this project.

# CROCKER Art Museum

Exhibitions, Events, and Programs at the Crocker Art Museum

## CONTINUING EXHIBITIONS

### **"Of Cottages and Castles: The Art of California Faience"**

**February 22 through May 17, 2015**

William Bragdon was a ceramic engineer trained at Alfred University in New York. He moved to Berkeley in 1915 to teach at the California School of Arts and Crafts and shortly thereafter formed a partnership with his Alfred University classmate Chauncey Thomas, then running a Berkeley pottery studio. Together they created decorative tiles, vases, and sculpture, calling their wares California Faience. The most prestigious of the company's projects came in the 1920s when architect Julia Morgan commissioned a complete environment of tiles for William Randolph Hearst's palatial home and grounds in San Simeon. The first exhibition on this subject, "Of Cottages and Castles" presents the full range of the company's accomplishments, with an emphasis on decorative pieces emblematic of Arts and Crafts, Art Deco, and Moderne styles, as well as tiles made for Hearst Castle.

### **"The Nature of William S. Rice: Arts and Crafts Painter and Printmaker"**

**February 22 through May 17, 2015**

This exhibition offers a rare glimpse into the private world of William S. Rice (1873–1963), an artist and naturalist known for his ability to distill nature to its simplest forms. Rice was a prolific painter of the California landscape but is today better known as a printmaker, one who authored two books on the process and executed every print himself. He applied the classic Japanese art of "ukiyo-e" (woodblock printing, or "pictures of the floating world") to images of the West, where he moved in 1900. This exhibition brings to light many of the artist's accomplishments, including several never-before-exhibited pieces, featuring both still lifes and the California landscape before development.

## Del Paso Heights Community Visioning Kickoff

### June 3 – 5, 2015

Sacramento is one of five cities nationwide to win a competitive grant from the American Institute of Architects for technical assistance to help revitalize the city's Del Paso Heights neighborhood.

On June 3, AIA's Sustainable Design Assessment Team (SDAT) program will bring seven national experts to the city for three days to develop recommendations for improving one of Sacramento's oldest and most diverse neighborhoods. The SDAT will work with the community over the course of three days to shape the community's strategy for addressing revitalization, the sense of community, jobs, and economic issues.

### Your Input and Participation are Critical

Community involvement is critical to the SDAT process, and will be sought via round table discussions and a community town hall meeting. The discussion topics are generally reflected in the SDAT expertise:

1. Economic Development
2. Neighborhood Urban Design and Community Connections
3. Neighborhood and Community Revitalization

Your participation in these events will be essential to ensuring that the SDAT members gain knowledge and insight into Del Paso Heights' central issues and opportunities, as well as its relationship to the rest of Sacramento. With your help, we can begin establishing a community vision for Del Paso Heights future and make decisions that support the shared vision. The City of Sacramento is bringing together residents, property owners, urban designers, planners, businesses, community leaders, architects, and **YOU!**

### Please join us for one or all of these events

## If improving options for mental health respite is important to you, consider serving with the Respite Partnership Collaborative

On behalf of the Respite Partnership Collaborative (RPC), Sierra Health Foundation: Center for Health Program Management is accepting applications for membership in the RPC.

The RPC is looking for members interested in mental health issues to contribute to the evaluation activities of the project, including the mental health respite programs, and the development of a plan to communicate about respite and efforts to sustain successful respite services.

The RPC is a community-driven body of dedicated volunteers working together on an innovative project that supports respite programs as a way to respond to mental health crisis in Sacramento County.

The RPC began in May 2012 to address mental health crisis by establishing respite options to help reduce the need for hospitalizations that could occur as a result of mental health crisis. The RPC has announced four rounds of funding. Through this funding, 10 organizations have received grant awards totaling \$5.25 million to provide mental health respite. In 2013-2014, 1,545 individuals received mental health respite in Sacramento County.

The RPC project is a partnership of selected community members, the County of Sacramento Division of Behavioral Health Services and Sierra Health Foundation: Center for Health Program Management. The RPC is funded through the Sacramento County Mental Health Services Act (MHSA) Innovation Component.

Learn more about the RPC and download application materials on the [Center for Health Program Management web site](#).

Applications will be accepted until all positions are filled.

Please share this information with other interested community members.

Send any questions to [rpc@sierrahealth.org](mailto:rpc@sierrahealth.org).
